Short self-introductory text: I am Özge Bülbül. I am 19 years old and this is my second term in Hacettepe University as an artificial intelligence engineering student. I am hoping to be a part of enlightening and also enjoyable three months in this course.

I acknowledge that I have fully read and understood the contents of the course website; I will not share my work (not even a part of it) on Piazza; I will be responsible for what has been discussed/asked on Piazza; I will not expect any response for my questions that have already been asked or written in a language other than English. I understand that if I have any questions or concerns about the course mechanics, it is my responsibility to discuss them with the instructors within their office hours.
